## Five College Fellowships

Five College Fellowships offer year-long residencies for doctoral students completing dissertations. The program supports scholars from under-represented groups, and/or scholars with unique interests and histories, whose engagement in the Academy will enrich scholarship and teaching. Normally, four fellowships are awarded each year. Each Fellow is hosted within an appropriate department or program at Amherst College, Hampshire College, Mount Holyoke College, UMass Amherst or Smith College. Fellows are provided research and teaching mentors and connected through the consortial office to resources and scholars across the five campuses.

The fellowship includes a stipend of \$30,000, a research grant, health benefits, office space, housing or housing assistance, and library privileges at all five campuses belonging to the consortium. While the award places primary emphasis on completion of the dissertation, most fellows teach at their hosting institution, but never more than a single one-semester course.

Date of Fellowship: August 31, 2010 to May 31, 2011 (non-renewable)

Stipend: \$30,000

Review of applications begins: December 1, 2009

Awards announced in March 2010
